Thank you to all parents for ensuring their children were in full school uniform for class photographs. We are all looking forward to having these photos returned next term.

Thomas Winterbottom is our school ambassador for 2015. Thomas is an outstanding public speaker who is interested in social and environmental issues. Over the course of the year, Thomas will link up with school ambassadors from 29 other local public schools and work on projects geared towards school improvement. Part of his responsibility will be to communicate with staff and students regarding school issues and devise plans to address the most concerning of these.

Thomas Winterbottom, 2015 School Ambassador

The school has organised to have a team of optometrists on site next week to test the eyesight of all students. Parents will be notified if their child’s eyesight falls outside the average range. We are grateful to the team at the “Onesight” clinic for this free service. Learning is enhanced and children have a greater opportunity to excel at school when hearing and eyesight problems are identified and rectified.

Next week our younger students from K-2 will be treated to a visit from a representative and a furry friend from the Pet Education Group. Students will learn how to care for animals and how to approach animals with care.

A message from Mrs Hagan...

Teachers are finalising student reports for Semester 1. These will be sent home on 24/6/15. Accompanying the report will be an invitation to attend another 3-way conference. I encourage parents to attend these meetings with their children to share information, celebrate achievements and to set future learning goals.
GREAT WORK IN S1O

Aleksandra from S1O was very proud to come and show Mrs Bull her excellent work.

Hadi Hares and Nadeen Al-Zuhairi visited Mrs Hagan with information they had written about wet and dry environments.

ZONE CROSS COUNTRY

On Tuesday 26 May, 48 students attended the Zone Cross Country Carnival. Each student in attendance is to be commended for their efforts on the track. It was certainly a test of endurance and persistence for all. Congratulations go to Milan Drca and Isabella Farrell for being placed in the top 8. These students will be attending the Regional Carnival on Thursday 11 June. We wish them the very best of luck.

VISIT FROM FIRE AND RESCUE

The preschool students have been showing a growing interest in the Emergency Services within our community. Together with Little Leapers the children had the opportunity to talk to Busby Fire Fighters and learn all about how to be safe when there is a fire.
