Dear Parents / Caregivers

This term, students from Kindergarten will begin taking part in the school’s Home Reading Program. The aim of the program is to encourage the students to enjoy reading, to use reading skills they learn at school and to increase their work knowledge and fluency. Each student will be placed on a suitable level, matching reading skills to level of difficulty of the book.

Your child will select a book to take home to read to you. We ask that you encourage and support your child by listening and helping them for 5 to 10 minutes each night.

We encourage the students to take care of these books as the school’s resources are limited and we cannot continually replace lost and damaged books.

We look forward to a great year in Home Reading.
